### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### DETAILED ACTION

1. This office action is in response to the amendment filed on 01/20/05.

#### ***Claim Rejections - 35 USC § 103***

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. **Claims 55-58** are rejected under 35 U.S.C. 103(a) as being unpatentable over Booth et al. (US 6,516,352) (hereafter Booth).

**Regarding claim 55**, Booth suggests the teaching of the claimed subject matter "an input register adapted for receiving a control data stream from a transceiver; receive control logic coupled to the input register; and an input module interface module adapted to receive control data from the receive control logic and a data stream from the transceiver, and a signal from the transceiver indicative of the type of transceiver that is coupled to the module. the input module interface having a control and parity output and a data output wherein the input module interface module is responsive to the signal from the transceiver to convert at least one of the data stream and the control data accordingly" including adaptively controlling and transferring data through the interface module in accordance to the type of the physical device used. Even though Booth does not disclose "input register", "control logic" explicitly, one skilled in the art would have perceived that such claimed subject matter would have been optionally

included in the interface 212, as a whole, to facilitate the above data transferring (Fig. 5; col. 12, line 11 to col. 13, line 36).

**Regarding claims 56-58**, these claimed subject matter would have been obvious to one skilled in the art as part of the receiving process.

***Allowable Subject Matter***

4. **Claims 48-54** are allowed.

5. **Claims 59-60** are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Conclusion***

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
